

LAURA
KAMIL
ROBERT
DANIEL

13- As a customer, I want to be able to choose to pay in cash, MobilePay or card so that I have these options at my disposal.

-> new window, three buttons, the button for pay with cash sends an order with the status "unpaid". this should appear for the cashier. MOVE THE ALERT TO THE NEW VIEW.

18- As a customer, I want to pick whether my order is for on-site consumption or take-away so that I have a choice.

-> In the same window as PAY. ON-SITE or TAKE-AWAY is just a part of the comment. There will be a method for setting the comment which just puts ON-SITE or TAKE-AWAY at the beginning or end of the comment String. (plus equals) + KAMIL

17- As a customer, I want to be able to leave a comment in my order so that I can make a special request.

-> Do we have a button? The new view will reuse stuff from Cashier View -> Edit Comment.

19- As an admin, I want to add an extra to the list of products of the Campus Café so that they will be visible for customers when they order.

-> Similar to Database View & Add Item View? Just that it's for Extras.

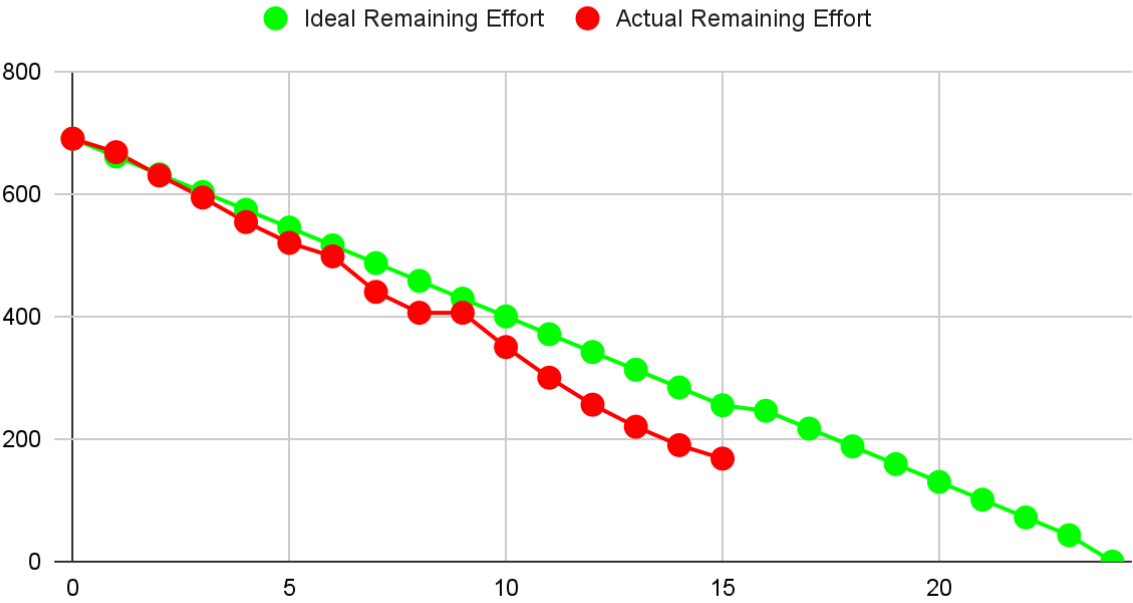

IN EXTRA MANAGEMENT: -> make checkboxes for all the types (just 4) and then this information will be used to insert into the table EXTRAAVAILABLEFORTYPE. (put the extra created and the type.) ADD AND REMOVE

20- As a barista, I want to see the extras the customer has added to his items so that I will assemble his order correctly.

-> New table in the Details View. Will fetch from the database (extrainiteminorder) and the new table will say which item(just name) & which extra(s) for it. The extras are shown as an ArrayList toString.

PB-ID	ID	Task Title	Responsible	Estimate (hours)	Status
13	1	Design PaymentView	Robert	2	Completed
13	2	Implement PaymentView + VC + VM	Robert	10	Completed
13	3	Integration Test and Document PaymentView	Robert	2	Completed
18	4	Implement checkboxes for take-away or not (PaymentView)	Robert	2	Completed
18	5	Add functionality to the checkboxes	Robert + Kamil	14(7*2)	Completed
18	6	Test and document the take-away feature	Robert	2	Completed
20	7	Modify and implement the extras to be visible for Barista in DetailsView	Kamil	12	Completed
20	8	Test and document ^^^^	Kamil	4	Completed
19	9	Extra Database View	Laura	8h	Completed
