

- *What work did you complete yesterday?*
- *What have you planned for today?*
- *Are you facing any problems or issues?*

YESTERDAY

Kamil's notes: I have completed RMI. Class diagram needs to be updated with the Remote interface which is implemented by RemoteCafeServer. The Client/Server methods have wrong return types and parameters. We have to fix this GUI. It is working for me and I can send from GUI up to the Server with a print out. There is no RMI task in the sprint backlog.

Robert: Model, ViewModel, ViewModelFactory, updated class diagram accordingly

Laura: Implement Utility classes & start on Database Manager Implementation

GOALS FOR TODAY:

- KAMIL: FIX GUI, document MVVM, document RMI, test MVVM
- ROBERT: FIX GUI, document MVVM and test MVVM, finish updating class diagram
- LAURA: Keep working on a database manager:)

***GUI - EVERYONE NEEDS TO IMPORT THEIR GLOBAL
LIBRARY***

***FOR DOCUMENTATION WE NEED TO INCLUDE THE
LIBRARIES THAT WE USED***
