18	6	Test and document the take-away feature	Robert	2	Completed
20	7	Modify and implement the extras to be visible for Barista in DetailsView	Kamil	12	Completed
20	8	Test and document ^^^^	Kamil	4	Completed
19	9	Extra Database View	Laura	8h	Completed
19	10	Add Extra View	Laura	8h	Completed
19	11	Documentation ^^^^	Laura	4h	Completed
17	12	Implement add comment for order	Dany	4h	Completed
17	13	Create add comment view (VC+VM)	Dany	4h	Completed
17	14	Test and document add comment	Dany	4h	Completed
21	15	Document Access Keys	Dany	6h	Completed

WHAT WAS ACHIEVED:

- LAURA: Made Extra Database View & Add Extra View
- KAMIL: Extras displayed for the Barista, Customer can now add a comment, small fixes
- ROBERT:
- DANIEL: Documented the access keys

WHAT WENT WELL:

- LAURA: Feel confident with making new views quickly, can document faster & faster
- KAMIL: Figuring out the extras displayed for the barista was quicker than I thought, new Property class was introduced.
- ROBERT:
- DANIEL: got more knowledge on how to document

WHAT TO DO NEXT:

- LAURA: Deploy system (fix minor issues), javadoc, report writing
- KAMIL: Focus on cleaning up the system, start documentation
- ROBERT:
- DANIEL: Javadoc □□, help fixing the current bugs/issues
- AAAA
 - **concerns - transition phase of UP**
 - **Can we have a sprint that is a phase of UP?**
 - it is possible to add the same extra to the same item more than once, it shouldn't be. Throw an EXCEPTION.
 - When, in the same order, there are two products of one item and they both have extras, the extras table is joining them together. They should stay separated. ORDER DETAIL VIEW
 - Get rid of scrollbars in BARISTA
 - Figure out PROXY
 - Talk to Steffen & figure out how to structure Reports
